

## Fieldtrip 4: GPS Golf

**Leader - Greg Way**

**Tuesday 11<sup>th</sup> January only**

Enjoy the tranquil views and natural splendor of the Southern Fleurieu as we travel for just over an hour to The Links Lady Bay Resort situated near the seaside town of Normanville. Play 18 holes at the magnificent Jack Newton designed championship golf course. Use motorised buggies fitted with GPS technology that provide accurate information about the distance to the flags and other targets and enable better club choices and shot strategy. There will also be a number of activities involving handheld GPS units over the course of the day. A range of prizes will be available to be won.

After the round relax and enjoy the stunning ocean views of the Fleurieu coastline from the clubhouse over a lunch prepared from local produce.

The activity **covers** your transport to and from Scotch College, green fees, shared buggy, and lunch. Club hire and drinks are **not included**.

*This trip will necessitate an early morning departure (7.15 am) and a late afternoon return (5 pm). Numbers are limited to 20, so be quick!*
